

Do I need to do anything before repayment begins?

As a first step, you will need to update your contact information on studentaid.gov and with your loan servicers, whether you are starting payments for the first time or restarting after the pause.

If you have never made a payment before, you can visit studentaid.gov/firstpayment to review next steps before repayment begins in October.

If you will be restarting payments, you can visit studentaid.gov/restart to review your next steps before repayment begins in October.
