

COLLEGE MADE EASY:

THREE WAYS TO PAY FOR SCHOOL

1 SOMEONE ELSE'S MONEY

- a. **Scholarships** are financial aid that do not have to be repaid. They are most often merit-based. Check for scholarships through the university, your college, your employer and your parents' employers. Also go to: financialaid.utah.edu
- b. **Grants** are usually need-based and like scholarships, are the best option for paying for school because they do not have to be repaid. Occasionally you may have to pay back part or all of a grant, if for example, you withdraw before finishing the semester. Each year, file a Free Application for Federal Student Aid (FAFSA) at fafsa.ed.gov for federal grants such as the Pell Grant.

2 YOUR MONEY

- a. **Savings**
 - i. College savings plans, personal savings or help from your parents.
- b. **Wages**
 - i. Work Study—Work study is based on financial need and would be awarded to you when you fill out FAFSA.

Working on or off campus can help you pay for school. Working and saving, and sticking to a budget are good options for financing school. Remember to make school your first job. You do not want to risk losing financial aid and scholarships by letting your grades slip or failing classes. If you haven't saved and work is too much while a student, consider loans.
